Subject: Final Review – East Stanislaus 2018 IRWM Plan

Dear Mr. Lopez:

This letter transmits the final review of consistency of the East Stanislaus 2018 Integrated Regional Water Management (IRWM) Plan (Plan) with the IRWM Planning Act and the related IRWM Plan Standards contained in the 2016 IRWM Program Guidelines (Guidelines). The Department of Water Resources (DWR) finished the draft review of the Plan and determined it to be consistent with the Guidelines. The draft Plan was then posted on DWR's website from June 1, 2018 to July 11, 2018 to satisfy the required 30-day public comment period and no comment was received. Therefore, DWR has made the final determination that the Plan is consistent with the Guidelines. The final review is posted on the following link: <https://www.water.ca.gov/Work-With-Us/Grants-And-Loans/IRWM-Grant-Programs/Plan-Review-Process>.

If you have any questions, please contact Ted Daum at (916) 651-9264 or Theodore.Daum@water.ca.gov.

Sincerely,

IRWM PLAN REVIEW FORM

INTRODUCTION

IRWM planning regions must have an IRWM Plan that has been reviewed and deemed consistent with the IRWM Plan Standards by DWR for eligibility to receiving Proposition 1 IRWM Implementation Grant funding. DWR will use this IRWM Plan Standards Review Form, which can be found at the link in Volume 1, Appendix A of the 2016 Guidelines and represented in Table 7 of the Guidelines, to ensure a consistent assessment of whether the 2016 IRWM Guidelines are being addressed in the IRWM Plan. The form contains a checklist for each of the 16 Plan Standards and narrative evaluations where required. The evaluation is pass/fail; there is no numeric scoring. Each Plan Standard is either sufficient or not, based on its associated requirements. Each Standard consists of between one and fifteen requirements. A Yes or No is automatically calculated in each Plan Standard header based on the individual requirement evaluations. In general, a passing score of "C" (i.e. 70% of the requirements for a given Plan Standard) is required for a Standard to pass. Standards with only one or 2 requirements will need one or both of those requirements to pass. Standards with 3 requirements will need at least 2 of the requirements to pass. Standards with 4 or 5 requirements will need at least 3 to pass. Some plan elements are legislated requirements. Such plan elements must be met in order to be considered consistent with plan standards. A summary of the sufficiency of each Standard is automatically calculated on the Standards Summary worksheet. A "No" evaluation indicates that a Standard was not met due to insufficient requirements comprising the Standard. The evaluation for each Plan Standard and any associated insufficiencies is summarized on the Standards Summary page. Additional reviewer comments may be added at the bottom of each standards work sheet.

Note: This review form is meant to be a tool used in conjunction with the 2016 IRWM Guidelines document to assist in the evaluation of IRWM plans. It is not designed to be a substitute for the Guidelines document itself. Reviewers must use the Guidelines in determining plan consistency.

DEFINITION OF TABLE HEADINGS

- IRWM Plan Standard:** As named in the 2016 IRWM Guidelines.
- Overall Standard Sufficient:** This field is either "YES" or "NO" and is automatically calculated based on the "Sufficient" column described below. If all fields are "y", the overall standard is deemed sufficient. Any entry other than a "y" in the Sufficient column (i.e. "n", "?", not sure, more detail needed, etc.) results in a NO.
- Plan Standard Requirements Which Must Be Addressed:** **Fields with a footnote () are required by legislation to be included in an IRWM Plan.**

Requirement	Requirements are taken directly from the 2016 IRWM Guidelines.
2016 IRWM Guidelines Source Page(s)	Page(s) in the 2016 IRWM Guidelines which pertain to the Requirement and include the regulatory or other citations where applicable.
Included	Is the Guideline Requirement included in the IRWM Plan? The options are: y = yes, requirement is included in the IRWMP; or n = no, requirement is not included in the IRWMP. If only y or n then presence/absence of the requirement is sufficient for evaluation. If there is a "q" (qualitative) then add a brief narrative, similar to a Grant Application Review public evaluation or supporting information.
Evidence of Plan Sufficiency	
Location of Standard in Grantee IRWM Plan	The page(s) or sections in the IRWM Plan where information on the Requirement can be found. This can be specific paragraphs or entire chapters for more general requirements.
Brief Qualitative Evaluation Narrative	Supporting information for the Requirement if a "q" is in the Included column. This can be just a few sentences or a paragraph and can be taken directly from the IRWM Plan. Comments or supporting information may be entered regardless of whether required.
Sufficient	Is the Guidelines requirement sufficiently represented in the IRWM Plan (y/n).

Public outreach and involvement processes	37	y/n/q	y	4-13 -- 4-19, Appendix F: Outreach and Communications Plan	A public advisory committee provided feedback on the IRWMP throughout the planning process. Public workshops were also conducted, and stakeholder outreach was conducted via email throughout the process. Information was disseminated via the Plan website, newspaper notices, and flyers prior to public outreach meetings.	y
Effective decision making	37	y/n/q	y	4-10 --4-12, Appendix A: ESRWMP Memorandum of Understanding, Appendix E: SC and PAC Roles and Responsibilities	Decisions are made using a consensus-based approach, with each member of the ESRWM Partnership holding one vote and all actions requiring a simple majority vote. Initial decisions were formulated at the steering committee and public advisory committee level, then brought to the Partnership for acceptance.	y
Balanced access and opportunity for participation in the IRWM process	37	y/n/q	y	4-13 -- 4-17, Appendix E: SC and PAC Roles and Responsibilities	Anyone may participate in the IRWM planning process by becoming a member of the public advisory committee, providing public comments, submitting projects for inclusion in the plan, or attending public forums held during the plan update process.	y
Effective communication – both internal and external to the IRWM region	37	y/n/q	y	4-4, 4-19 --4-22, Appendix F	The governance structure is comprised of a Steering Committee (staff level), the ESRWMP (decisionmaking level), and a public advisory committee. Steering Committee representatives report back to the ESRWMP representatives throughout the planning process to brief them regarding specifics for plan implementation and to gain approval for the Plan's content. The governance structure allows for effective communication among the committees, ESRWMP, and consultant(s), as well as between the ESRWMP, SC, regional stakeholders and the public. The Region has ongoing communication with surrounding IRWM Regions, and coordinates with State and Federal agencies through various projects.	y

How interim changes and formal changes to the IRWM Plan will be performed	38	y/n/q	y	1-4 -- 1-5	Formal changes will be performed as required by updates to the IRWM program guidelines and adopted by the East Stanislaus RWMG. Interim, administrative changes do not require re-adoption of the plan. The project list is housed in an online database which allows for continuous update of project information and a "living" project list.	y
Updating or amending the IRWM Plan	38	y/n/q	y	9-12	Updates to the Plan will occur as needed, no less than every 5 years, and be adopted by the Partnership members. Project proponents and stakeholders may also adopt the plan if they choose to.	y
